- Donate all organs or Heart / Liver / Kidneys / Skin / Eyes
- Transplant Medical Education Scientific Research
- Do not consent

9. What are your views about being kept alive artificially if there is no known hope of recovery?

DECISIONS TO BE MADE BY AGENT

Generally, your agent has authority to make healthcare decisions, where you live, and who you can live and associate with.

However, your agent cannot make the below decisions unless you put in your Personal Directive that your agent has the authority to make those decisions.

Please put a checkmark beside those items you wish included in your document:

- removal of tissue from living body for implantation in the body of another living person or for medical education or research purposes ;
- sterilization, even if it is not medically necessary to protect the maker's health;
- psychosurgery: means any procedure that, by direct or indirect access to the brain, removes, destroys or interrupts continuity of histologically normal brain tissue or that inserts electrodes for pulsed electrical stimulation for purpose of altering behavior or treating psychiatric illness (definition from the *Mental Health Act*);
- participation in reasonable trial of medical research or experimental medical treatment, if the participation offers little or no potential benefit to you.

Other medical directions to be included:

If you have specific medical direction, please provide it below. You should seek specific wording from your health care provider. Please keep in mind that you cannot leave instructions to order suicide, euthanasia and other instructions prohibited by law.

Please note that if you want a complicated medical clause prohibiting certain medical procedures to be done on you, you will need to have your doctor supply us with such a clause for us to include in the personal directive.

Do you wish to prevent anyone in particular:

- To be given access to information about you or your health care or to the record of personal decisions which your agent is required to keep?
- To make decisions for you or have their views play any part in the actions taken under your personal directive?
